Take control of your inventory with precision in procurement, featuring reorder quantities and agency-wise purchase orders. Our software ensures financial accuracy with purchase price protection and payment deduction for returns.

Foster loyalty and repeat business with features like coupon codes and points redemption, placing customer satisfaction at the heart of your operations. Experience adaptability for growth, as Bloombyte Superstore POS caters to businesses of all sizes. Benefit from complete inventory control, optimize your margins with customizable settings, and implement adaptable pricing strategies to stay ahead in a dynamic market. Ensure tax compliance with our advanced tax mapping feature, reducing the risk of errors in your financial transactions.

Our dedicated support team ensures peace of mind, providing prompt assistance whenever you need it.

# Store Sales

## Retail Billing Reinvented

Our software simplifies the retail billing process, providing accurate and swift transactions. Spend less time on paperwork and more time attending to your customers needs. From inventory management to customer transactions, Bloombyte SuperStore Software ensures a smooth and efficient sales experience.

### **Wholesale Billing Excellence**

Bloombyte SuperStore Software caters to your wholesale needs, facilitating bulk transactions with precision. Manage your wholesale operations seamlessly and elevate your business to new heights.

### **Coupon Code Integration**

Boost customer engagement and loyalty with our integrated coupon code system. Easily create and distribute coupon codes to attract more customers and enhance their shopping experience.

### **Redeem Points, Delight Customers**

Reward your loyal customers by implementing a points redemption system. Encourage repeat business and create a sense of appreciation by allowing customers to redeem points for exciting discounts and offers.

## **Purchase Management**

---

### **Purchase Entry Simplified**

Experience hassle-free purchase entries with our intuitive interface. Streamline the entire procurement process effortlessly and focus on what matters most - growing your business.

### **Maintain Reorder Quantity**

Never run out of stock again! Bloombyte Superstore POS Software lets you set and maintain reorder quantities, ensuring that you are always stocked with the right inventory levels.

The screenshot displays two windows of the Indbazaar Purchase Order software. The top window is titled 'Purchase Order' and shows a header with 'Supplier' dropdown, 'Download File' (options: 'Download System PO (All)' and 'Download System PO (Grocery)'), and 'Upload File' (set to 'C:\Users\Nethaji\Documents\PurchaseOrderAll.xlsx'). A 'Browse' button is also present. The bottom window is titled 'Purchase' and shows a detailed purchase record for PO No. 34534 from Supplier Name A.M ENTERPRISES on Invoice Date 16-12-2023. The record includes columns for S.No., Code, Product Name, MRP, Qty, FreeQty, BaseCost, TotalCost, RegDisAmt, SplDisAmt, TaxAmount, NetAmount, PurchasePrice, SalePrice, HSNCode, and Tax%. The total amount for the purchase is 1680.50. On the left side of the main window, there is a sidebar titled 'Supplier' listing various suppliers like Kayal Age, Solaimala, ARAVINDH, etc.

## Agency-Wise Purchase Orders

Manage your suppliers with precision. Generate agency-wise purchase orders to enhance communication and streamline procurement from different sources seamlessly.

## Purchase Price Protection

Shield your budget from market fluctuations. Our purchase price protection feature ensures that you secure the best prices, providing stability in your procurement costs.

# Product Management

The screenshot shows the 'Product Master' screen from the Indbazaar software. The main title is 'Product Master'. The left panel contains fields for 'Product, Price' including Product Code (297606), Product Name (Cinnamon Powder 100Gm), Short Name (Cinnamon Powder 100Gm), Supplier Name (A.E. Duraisami & Co), Brand (Local Brand), Department Name (Groceries | Masalas & Flours), Category (Masalas & Spices), Sub Category (Ready Masalas), Manufacturer, UOM (PCS), HSN Code (0910), Encode, Stock Days (30), Purchase Price (47.60), Reg Disc % / Amt (0.00 / 0.00), Purchase Price+Tax (49.98), MRP (65.00), Agency Markdown % (23.00), and Margin Type (SP FixedDiscount, WSP1 Markup%, WSP2 FixedDiscount, WSP3 FixedDiscount). It also displays 'Available SP Margin % : 30.05'. The right panel includes sections for 'HSNCode Tax%', 'Purchase Order', 'Settings', 'Visibility', and 'Encode' (with the value 297606). The bottom of the screen shows keyboard shortcuts (F8 - New, F4 - Save, Esc - Exit) and system information (User Name: 1004, Date: 16-12-2023).

## Effortless Product Management

Take control of your inventory with an intuitive and user-friendly interface. Bloombyte Superstore POS simplifies product management, making it easy to add, edit, and organize your product catalog.

## Inventory Control

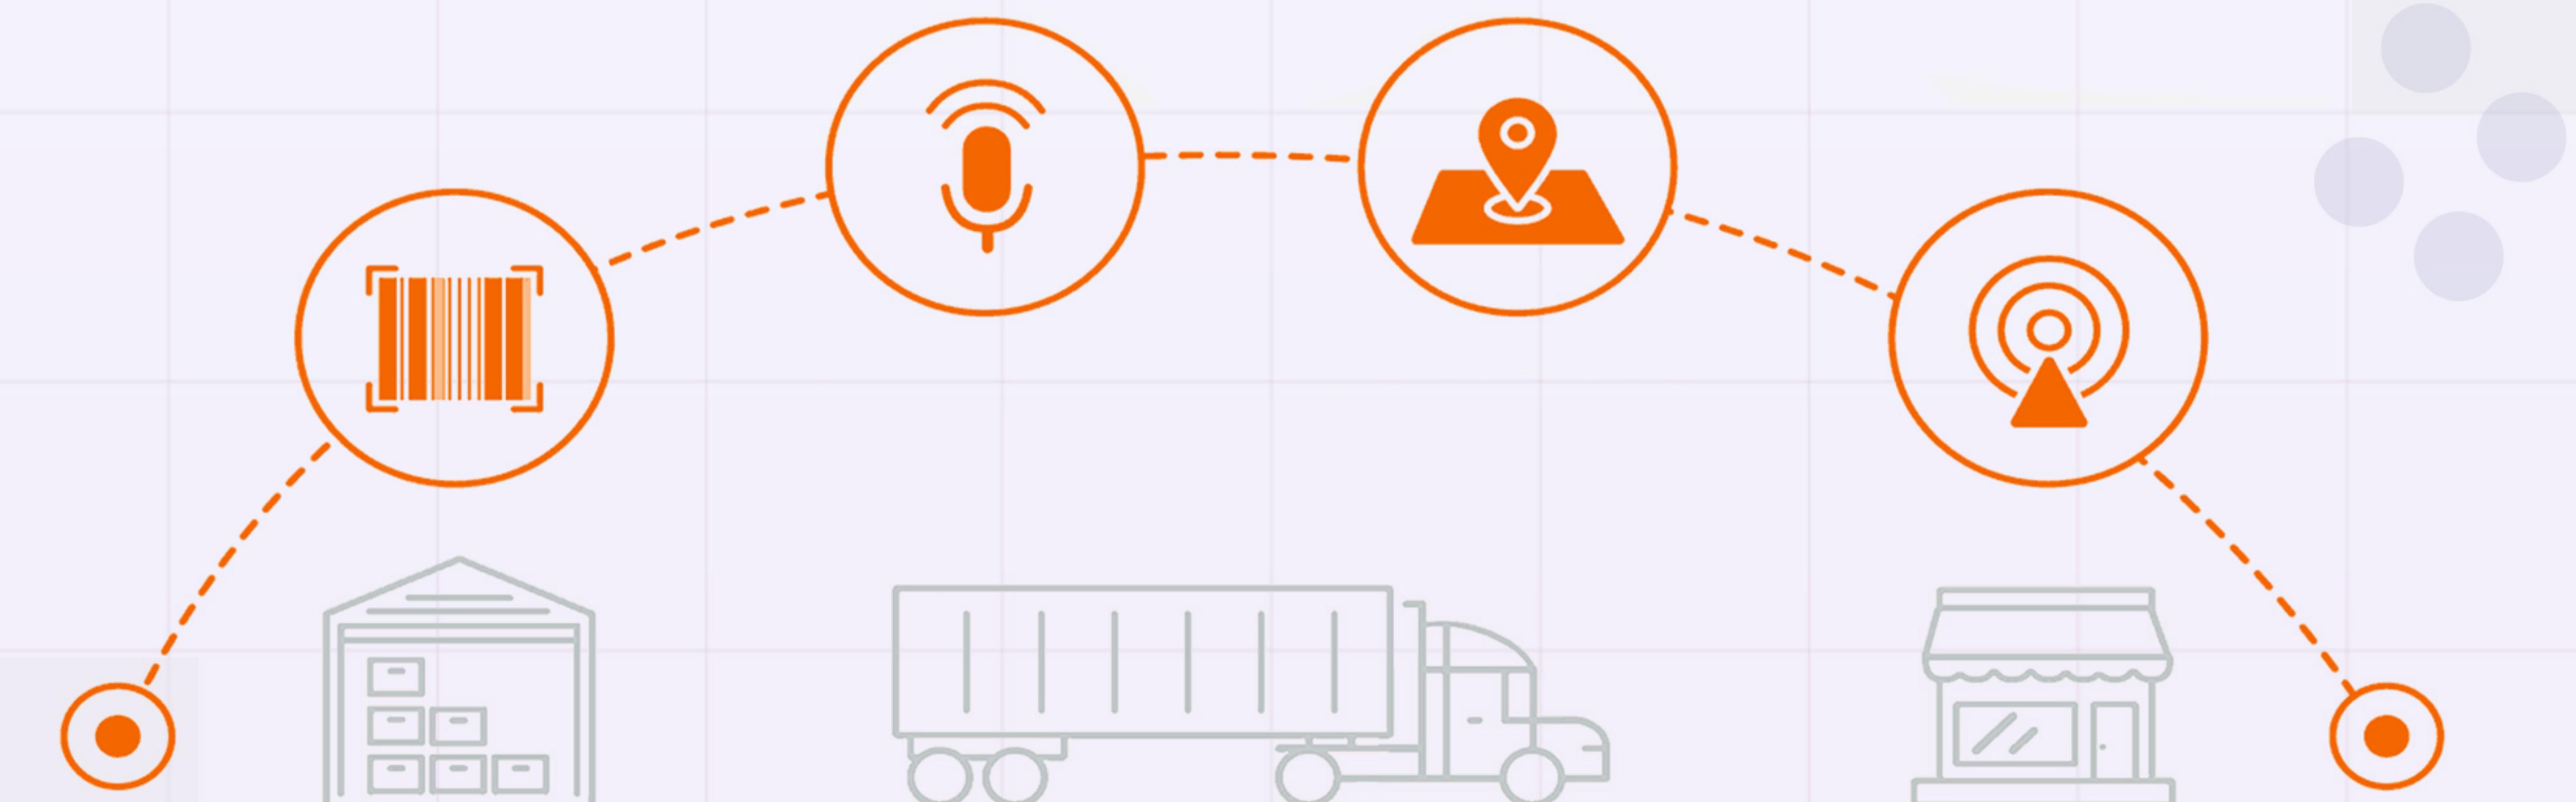

Bloombyte Superstore provides robust tools for meticulous inventory control, allowing you to monitor stock levels, track product movements, and set reorder points. Stay in control of your inventory, prevent stockouts, and optimize storage space.

## Transfer In Simplified

Streamline the process of transferring inventory between stores with Bloombyte Superstore POS. Easily manage and track incoming transfers to ensure your shelves are stocked and ready for customers.

## Transfer Out Efficiency

Take control of your stock levels across multiple locations. Bloombyte Superstore POS Software enables you to organize and process outgoing transfers with ease, optimizing inventory distribution.

# Stock Management

The screenshot shows a software application window titled "Wastage Account". The header includes the Indbazaar logo and a search bar. The main table displays one item:

Code	Product Name	Qty	MRP	Reason
297606	Cinnamon Powder 100Gm	1	65.00	Damaged

Below the table, there are input fields for "No.Of Item" (1), "Total Return Qty" (1), and product details like "Product Code" (297605), "Stock" (1.00), "Wastage/Expired Qty" (1), "MRP" (150.00), "Description" (Dry Ginger Candy 250Gm), and "Reason" (Expired). A yellow "Add" button is visible. At the bottom, there are function keys: Esc- Add More Item, F2 - Edit Qty, F4 - Save, F5 - New, and Exit. Log-in information at the bottom includes "User Name : 1004", "Terminal : ", and "Date : 16-12-2023".

## Wastage Accounting Excellence

Minimize losses with precise wastage accounting. Bloombyte Superstore POS helps you identify and manage wastage, providing valuable insights for continuous improvement.

### Grocery Wastage Control

Streamline your grocery operations by pinpointing and addressing wastage issues. Bloombyte Superstore POS empowers you to optimize stock levels and reduce unnecessary losses in the grocery segment.

### Branded Product Wastage Reduction

Protect your profits by minimizing wastage of branded products. Bloombyte Superstore POS allows you to track and manage wastage specifically for branded items, ensuring maximum returns on investment.

## Barcode & Label Management

### Barcode Sticker Generation

Bloombyte Superstore POS Software empowers you to generate unique barcodes for your products, enhancing visibility and traceability. Streamline your inventory control with organized barcode management. Easily associate barcodes with products, making tracking and monitoring a breeze.

### Customizable Labels

Tailor barcode labels to suit your branding and information needs. Bloombyte Superstore POS Software allows you to create labels that include essential details such as product names, prices, and more.

The screenshot shows a software application window titled "Barcode Sticker Print". At the top left is the "Indbazaar" logo. The main title "Barcode Sticker Print" is centered at the top. Below it, a "Product Code" field contains "297606" with a barcode icon to its left. A table displays product details: S.No., BatchCode, Code, Stock, MRP, Price, and Tax. The first row shows: 1, 309533, 297606, 1.00, 65.00, 64.00, and 5.00. To the right of the table is a "Description" field containing "Cinnamon Powder 100Gm". Below this are input fields for "Batch Code" (309533), "Expiry Day(s)" (0), "MRP" (65.00), "Packed on" (16/12/2023), "SalePrice" (64.00), and "No of Sticker" (2). At the bottom are four yellow buttons: "F8 - New", "F4 - Print (Zebra,Honeywell,etc.)", "Download Latest File (Inject\_Printer\_File)", and "Esc - Exit". The status bar at the bottom shows "User Name : 1004" and "Date :".

## Multi-Format Support

Bloombyte Superstore POS supports various barcode formats, ensuring compatibility with industry standards. Generate UPC, EAN, QR codes, and more with ease.
